

Planning a four year PhD Project

Assignment

Step 1

Take a flip over sheet and divide it into four years.

Make a 12 month division for every year.

Make a planning of your PhD project by putting the little cards on the sheet.

Use blank cards when you need extra items.

If you want to take a photograph.

Step 2

What are the unknown factors?

What are the risky parts in your planning?

Create alternative scenarios for those risky parts.

Step 3

What issues do you want to discuss with your supervisor?
